Botco.ai - Revolutionizing Behavioral Health Access Through AI Innovation

AI FOR PHARMA AND OTC LAUNCH

Why Botco.ai?

HIPAA , GDPR, & SOC-2 Compliance: Ensures safe handling of sensitive patient data.

GenAI-Powered Conversations: Conversational access to clinical documentation and regulatory guidelines.

Seamless Integration: Works with existing systems (CRMs, EHRs, CCaaS, data lakes).

Proven Success: Experience with condition-specific support and adverse event reporting.

Cost Savings: Reduces manual effort, awareness spend, and patient attrition costs.

Transforming City Services with AI

Struggling with Budget Cuts and Citizen Demands?

What if you could cut costs, boost revenue, and make life easier for residents—all without adding extra workload to your team? With Botco.ai's Enterprise AI Agent Platform, you can streamline city services, reduce repetitive inquiries, and free up resources for what really matters.

How AI is Transforming City Services

Case Study: Smart Waste Management

A city in Texas was receiving over 350 weekly calls regarding waste collection schedules, missed pickups, and disposal guidelines. Botco.ai's AI-powered TrashBot automated responses, reducing call volume by over 90%, eliminating the need for additional staffing and improving service efficiency.

Case Study: Streamlining Business Processes

The Arizona Commerce Authority leveraged Botco.ai's AI-powered agent to simplify business licensing, regulatory compliance, and permitting. The solution enhances user experience by providing instant, accurate guidance and reducing delays.

AI Solutions for Government & City Services

AI Chatbots for Citizen Services – Reduce call center load by automating FAQs on waste management, permits, taxes, and more.

Real-time Service Updates – Keep citizens informed with instant updates on public transport, road closures, and city events.

Secure and Scalable AI Agents – Field-level encryption ensures compliance with GDPR, CCPA, HIPAA, and SOC-2.

Dynamic Content Updates – AI-powered agents adapt to policy and data changes in real time.

See AI in Action!

Try the **GPEC Chatbot**

Rapid Implementation & High Engagement

Botco.ai partnered with Greater Phoenix Economic Council (GPEC) to develop an AI-powered chatbot that provides instant information about the community, GPEC initiatives, Greater Phoenix industries, and more.

Limited-Time AI Adoption Program

To accelerate AI adoption, we are offering qualifying cities a free AI-powered chatbot focused on waste management or another customizable use case of your choice.
